Post Office Box 128  
San Clemente, California 92674-0128

TECHNICAL COMPLETENESS DETERMINATION FOR PERMIT APPLICATION,  
SOUTHERN CALIFORNIA EDISON SAN ONOFRE NUCLEAR GENERATOR  
STATION, SAN CLEMENTE (EPA ID NUMBER CAD000630921)

Dear Mr. Metz:

The Department of Toxic Substances Control (DTSC) has completed the technical review of the RCRA Part B Permit Application dated October 13, 2015 (Approved Application), submitted for the Hazardous Waste Facility Permit renewal at San Onofre Nuclear Generating Station (SONGS) located at 5000 Pacific Coast Highway in San Clemente, California 92672.

DTSC considers the Approved Application to be technically complete. Based on the information provided by the Approved Application, DTSC has prepared a Draft Hazardous Waste Facility Permit. This Permit along with the Approved Application will be made available for public review and comment during a public review period. If DTSC determines that additional information is needed to clarify, modify or supplement previously submitted material, DTSC reserves the right to require this information from SONGS.

DTSC will send SONGS a copy of the draft Permit, Public Notice, and other documents under a separate letter. If you have any questions regarding this matter, please contact me at (916) 255-3587 or at [sam.coe@dtsc.ca.gov](mailto:sam.coe@dtsc.ca.gov).

Sincerely,

Original Signed By:

Sam Coe  
Project Manager  
Permitting Division, Region 1  
Department of Toxic Substances Control
